Description

“Whoever takes a path seeking knowledge, Allah eases for them through it a path to Jannah.” The Islamic tradition is one that is built on a foundation of sacred knowledge, both in methodology and practice. This course is a continuation of an exploration of the fundamental and foundational pillars of belief in our tradition, namely belief in aspects of the Day of Judgement. The focus will be on the signs of the Day of Judgement, understanding them correctly, and their practical impact and lessons on our daily lives. This is especially important in our times, as we live closest to the signs and Times, and there is much misunderstanding and misapplication regarding this important aspect of our Faith.

Expectations and Goals

In order to gain the greatest benefit from this course, regular attendance is highly encouraged, along with attention and engagement in the class material, discussions, and assignments. By the end of the course, students will have a more in depth understanding of the Signs of the Day of Judgement and be able to derive practical and relevant lessons and benefits for one’s daily life and for preparing for one’s afterlife.
